Here are A.G. comments on Adjudication

Walt Elder gave us the originals. There are no copies - so first xerox a couple sets.

Look them over - they seem affirmative with the exception of one issue on 4 of which you are aware.

- Suggest you send a copy to OGC requesting their review and comment back to us.

I'll tell Gambino they are in and that you are reviewing with OGC. (Make me a copy for RWG)

We still await NSA and probably a couple others. NSA will object, I'm sure.

It seems to me that Justice's comments can't be ignored. Options -

a. Rebutt their arguments - dealing directly with Justice on having OGC join us in rebutting.

b. Do nothing - waiting until all returns are in so we can see the full scope of comments from NFIB members and then -

c. Inform Elder that no action is desired by NFIB at this time. We go ahead and try to accommodate the objections which essentially means we go back to the Working Group and redraft.

Let me know what you propose.
